RE: **Capital Budget Amendment –
RPA01 General Infrastructure—Pathways and Trails**

The County Executive is requesting an amendment to the 2018 Capital Budget to modify the funding of **Capital Project RPA01 General Infrastructure—Pathways and Trails**. This project provides funding for repairs and rehabilitation to the Parks trail system at the Hutchinson River, Twin Lakes, Nature Study Woods, Playland Parkway Path and the links to the Colonial Greenway/Leatherstocking Trail.

A previous appropriation and bonding was used to initiate the design and construction of the rehabilitation and extension of the Playland Parkway Path from Playland Park to the Rye MetroNorth train station. As design progressed, it became apparent that the initial appropriation of \$1,975,000 would not be sufficient to undertake and complete the construction of the pathway. A Capital Budget Amendment is being requested to add an appropriation of \$1,840,000 to complete final design and undertake construction of the rehabilitation and extension of the pathway.

The Planning Board adopted a report on this project (rated PL2) at its meeting on January 6, 2009.

There are no changes to the physical planning aspects of this project as reviewed by the Board; therefore, no further action by your Board is necessary.
