Additions to the 2021 County Budget coming directly to Southwest Yonkers *Adiciones al Presupuesto del Condado de 2021 que van directamente al Sureste de Yonkers*

World-class parks and open space are critically important for everyone, especially the people of Southwest Yonkers during the COVID-19 pandemic.

That's why I'm proud to have worked with County Executive George Latimer to commit more than \$15 million in County money to new and improved parks in the area.

Los parques de clase mundial y el espacio abierto son de vital importancia para todos, especialmente para la gente del suroeste de Yonkers durante la pandemia COVID-19.

Es por eso por lo que estoy orgulloso de haber trabajado con el ejecutivo del condado George Latimer para comprometer más de \$15 millones de dólares para nuevos y para mejoras de los parques en el área.

LUDLOW PARK

A new riverfront park has long been a dream of the residents of Ludlow Park. That dream took a step toward becoming a reality this year when, at my request, the County included \$10 million in capital funding in the 2021 Budget for the park. This is an important investment in an area that has long suffered from a lack of green space as well as from bad odors from the nearby wastewater treatment plant. At the Board of Legislators in the past year, we have approved millions of dollars of forthcoming improvements to the plant to improve odor control and make the air in the neighborhood cleaner. The commitment of a new \$10 million for a park continues the County's commitment to improving the quality of life for the people of Southwest Yonkers.

Un nuevo parque frente al río ha sido durante mucho tiempo un sueño de los residentes de Ludlow Park. Ese sueño dio un paso hacia convertirse en una realidad este año cuando, a petición mía, el Condado incluyó \$10 millones en fondos de capital en el Presupuesto de 2021 para dicho parque. Se trata de una importante inversión en una zona que ha sufrido durante mucho tiempo la falta de espacio verde, así como de malos olores de la cercana planta de tratamiento de aguas residuales.

En la Junta de Legisladores en el último año, hemos aprobado millones de dólares para venideros proyectos a la planta para mejorar el control de olores y hacer el aire en el vecindario más limpio. El compromiso de \$10 millones para un nuevo parque continúa siendo un compromiso del Condado para mejorar la calidad de vida de la gente del sureste de Yonkers.

RIVERWALK

I was also able to secure \$5 million in county funding for improvements to the Southend RiverWalk, a linear park along the Hudson that, when it is complete, will connect South Yonkers to town centers, historic sites, parks and river access points via trails, esplanades and boardwalks all the way from Yonkers to Peekskill.

También pude obtener \$5 millones en fondos del condado para mejoras en el Southend RiverWalk, un parque lineal a lo largo del Hudson que, cuando esté completo, alineará el sur de Yonkers a centros de la ciudad, sitios históricos, parques y puntos de acceso al río Hudson a través de senderos, explanadas y paseos del río desde Yonkers hasta Peekskill.

TIBBETS BROOK PARK

Work also continues on the improvements at Tibbetts Brook Park. The park is one of the most used County facilities drawing as many as 80,000 people a year. In recent years, we have approved millions of dollars of improvements to fields, facilities, parking, pathways and drainage at the park. In the 2021 Capital Budget, we have included a new \$1 million investment to build the County's first cricket field.

También continúan los trabajos de mejoras en Tibbetts Brook Park. Los parques son una de las instalaciones más utilizadas del condado atrayendo hasta 80,000 personas al año. En los últimos años, hemos aprobado millones de dólares en mejoras en campos, instalaciones, estacionamiento, caminos y drenaje en el parque. En el Presupuesto Capital de 2021, hemos incluido una nueva inversión de \$1 millón para construir el primer campo de cricket del Condado.

WHAT'S ON YOUR MIND?

Your comments and ideas result in improvements that strengthen our communities and policies that improve our quality of life in Westchester County. Please tell me what's on your mind. I'm always interested to hear from you.
