Mission Statement

The mission of the Department of Law, Office of the County Attorney, is to respond effectively to the needs of County officers, boards, departments and agencies, regarding legal counsel and representation. The County Attorney is charged by law to serve as legal counsel to the County Executive, the Board of Legislators, and to the County and all of its constituent departments, agencies and boards. The mission of the County Attorney is achieved in a variety of ways, including: the rendering of legal advice to County officials and employees in order to assist them on various projects the County is undertaking or contemplating undertaking; the preparation and review of legal documents; the drafting of legislation; the rendering of legal opinions, and the advocacy of the County's interests in trial and appellate courts, including special administrative proceedings. In providing legal services to the County, the Office of the County Attorney endeavors to reduce actual and potential future liabilities and financial exposure of the County and to maximize receipts of monetary sums to which the County may be entitled. The Office of the County Attorney seeks to assure that the County workplaces are free of discrimination and harassment and that County contracts and business opportunities are awarded fairly and openly, with women and minorities having equal access.

In addition the Office of the County Attorney seeks to protect the interests of children, disadvantaged adults, and society from domestic violence and abuse. Our Family Court Bureau acts to safeguard children from acts of abuse and neglect and to establish and collect child support from legally responsible parents. The Office of the County Attorney presents cases of juvenile delinquency to the Family Court in order to protect the public from dangerous juveniles and to rehabilitate juveniles in order to assist them in growing into productive members of society.

The 2016 Requested is \$24,100 greater than our 2015 Adopted Budget due to the cost of McKinney's books.

The 2016 Requested is the same as our 2015 Adopted Budget. This expense includes the cost of the Labor Negotiator and Arbitrators. The breakdown of arbitration cases is as follows: 80% of our arbitration fees are attributable to contract grievance and disciplinary arbitrations held with COBA and its members (the other fifteen percent is attributable to SOA, PBA and CSEA contract grievances). In the cases of SOA, PBA and CSEA, the costs of the hearings are evenly split between the respective union and the County. In the case of COBA, the fees are split up to the point where the union has expended \$20,000 on arbitration fees in any given year. Once that threshold is met, the County assumes 100% of the costs for the remainder of that year.

The 2016 Requested of \$818,000 is \$500,000 greater than the 2015 Adopted Budget.

Interdepartmental Charges

The 2016 Requested Budget is a decrease of t \$51,322 from the 2015 Adopted Budget. This is due largely to the reduction of IT charges.

Revenue

The Law Department's hourly rate charged to all County departments for law services for the current year is \$150.00. The calculated rate for 2016 budget is \$154.00. This hourly rate represents all billable hours produced by our Assistant, Senior and Associate County Attorneys, however it excludes all hours produced by the Assistant Chief Deputy County Attorneys, Chief Deputy County Attorney and County Attorney.

Interdepartmental Revenue (9508)

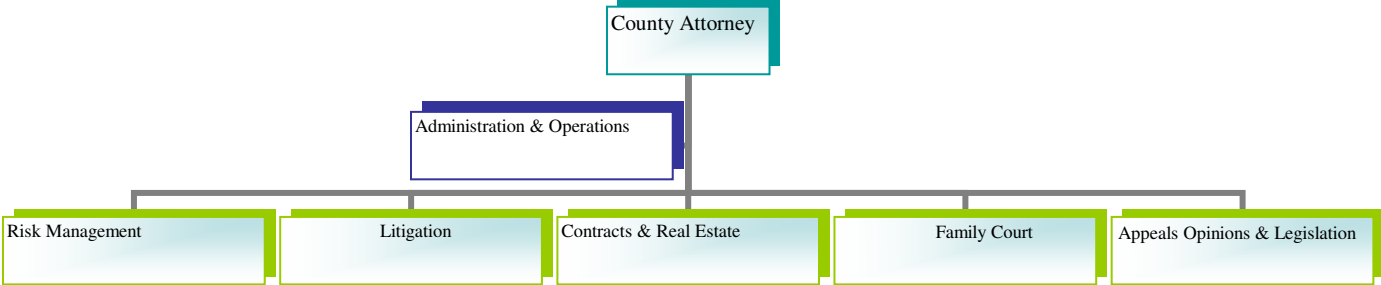

The 2016 allowed figure for Interdepartmental revenue for the Law Department is \$10,810,492. This represents an increase of approximately \$469,492 over 2015 estimates.

Departmental Revenue

The 2016 allowed revenue figure for Departmental revenue is \$2,874,102. This is an increase of \$44,202 from 2015 estimates due to a decrease in the hourly rate to Risk Management, Environmental Facilities and Westchester Community College.

Introduction

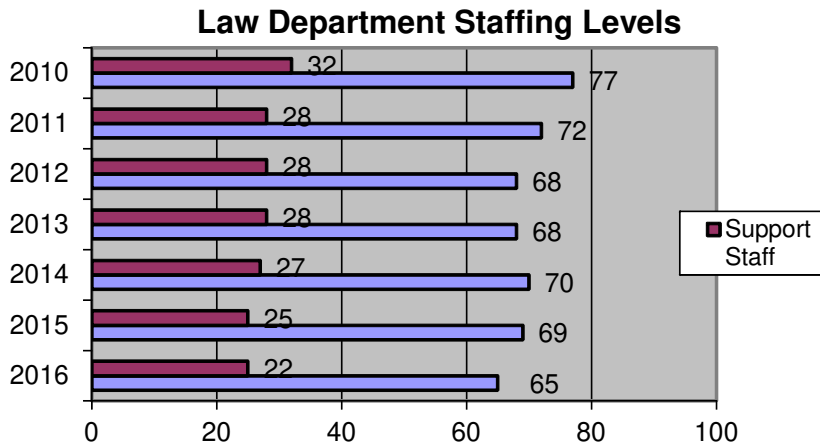

The structure of the Law Department reflects the constant striving to fulfill its duties and responsibilities in the most efficient and responsible manner possible. The Law Department is divided into four bureaus, each of which is focused on the different components of the “Operation of the Law Department”. In addition to the four Bureaus, the Department is responsible for the Office of Risk Management, which evaluates and reviews the County’s risk exposure. The organization of the Department is summarized in the following chart:

The Department of Law occupies approximately 23,000 square feet of space, utilizing the entire sixth floor and a portion of the second and seventh floors of the Michaelian Office Building. The Department is in proximity to the County Executive’s Office, the Board of Legislators, the Federal and County Court House Buildings, the District Attorney’s Office and many of the other County Departments that it serves.

The Law Department’s overall staffing level for 2016 has decreased for a total of 87 personnel. This number represents the number of authorized positions. The composition of the County Attorney’s office is shown below.

Pursuant to Chapter 158 of the Laws of Westchester County, only the County Attorney and his staff are authorized to provide legal services to the County and its Departments.

While the Law Department Budget has been a partner in reducing its burden on the tax levy, it continues to provide all essential legal services. Very often, the most complicated matters are also the most time sensitive. Managing these matters requires maximum effort and commitment by staff, so that even as cases have risen and their complexity increased, all the necessary services have been provided. The results of these efforts show in the number of notable successes achieved thus far in 2015 by the Office of the County Attorney.

Revenues

The increase in case levels is evident in all bureaus and involves all legally mandated services, including but not limited to family court proceedings, litigation defense of the County, legislation, contract preparation and review, appeals and advisory opinions.

The Law Department generates two separate revenue streams:

- Departmental revenues are generated through charges billed to other funds including the 6-N Fund, Sewer, Water, and Refuse Disposal District Funds and the Westchester Community College Fund. This billing is generated as a result of legal services that are provided by the Law Department to these entities.

- Inter-Departmental revenues are received from County departments for which the Law Department performs essential legal services. Departments included in this revenue stream include the following: Public Works, Human Resources, Public Safety Services, Parks and Recreation, Planning, County Clerk, Department of Social Services, Community Mental Health, the Budget Department, Finance, the Department of Health, Information Technologies, Probation, Corrections, Transportation, etc.

These billing charges are based on the number of hours that each attorney spends providing legal advice, research or services for each of these Departments on various matters. Charges are based on hourly rates derived from the Law Department’s operating costs and these rates are established each year in conjunction with the Budget Office when the County’s Budget is prepared. The hourly rate is based on the Law Department’s direct and indirect costs, while it excludes the usual and customary expenses incurred in representing our clients in such accounts as contractual services, technical services and litigation. The hourly rate for the current 2015 fiscal year is \$150.00 per hour.

The reason that billable hours are used both with cases handled by this Department and outside counsel is one of accountability and fiscal responsibility. The department being represented is then charged with monitoring their use of attorney’s time much like private practice. It has also allowed the Law Department to clearly track the hours attorneys spend on various legal matters. In short, it is a system of checks and balances for legal work of the County.

Breakdown by Revenue Category

As indicated by the above chart approximately 17% of the Law Department service hours are not billable. This equates to approximately 17,180 hours of client services. This includes services provided to elected officials including the offices of the County Executive, the Board of Legislators and the District Attorney as well as statutorily mandated juvenile delinquency prosecutions. The County Attorney and the Deputies in charge of each bureau do not bill for direct client services or supervision, nor are their hours included in these figures. Notwithstanding the fact that the Deputy County Attorneys do not bill for their time, they are primarily responsible for providing legal advice directly to the Board of Legislators. The Assistant Chief Deputy County Attorney in charge of the Litigation Bureau appears before the Board's Committee on Budget and Appropriations on a regular basis with regard to case settlements, requests to initiate litigation and other various legal matters that require Board of Legislator approval. The Deputy County Attorney in charge of the Contracts and Real Estate Bureau frequently appears before various Board Committees with respect to contractual, affordable housing and energy issues. The County Attorney or his designee attends all of the regular and special meetings of the Board of Legislator and attends, as requested, various Board Committee meetings with regard to proposed legislation or other matters. Non-billable services also include all attorney time billed directly to the Law Department.

The vast majority of the Law Department's revenue that is billable comes from Inter-Departmental billing, which comprises 68% of the attorneys' work time or approximately 67,968 hours for the 2015 fiscal year.

The second largest source of revenue for the Law Department is Departmental billing. Billing to Environmental Facilities, Public Utility Agency, Risk Management, Westchester Community College, and the Division of Solid Waste billing is considered Departmental billing. Each of these Departments contains their own separate funds and therefore their billing is maintained in a separate revenue stream than the Inter- Departmental billing. We estimate that the attorneys will spend approximately 14,982 hours on Departmental matters for the 2015 fiscal year or 15%.

The breakdown of non-billable services is detailed in the chart below:

*These figures exclude the approx. 32 days on average that each attorney submits for leave (annual, personal, sick, extended leave, and County Holidays).

Please be advised that this number represents only the work performed for the BOL by attorneys required to bill for their time. This number does not include the hours devoted to BOL work handled by the Assistant Chief Deputy County Attorneys, the Chief Deputy County Attorney and the County Attorney who do not bill for their time. Since a good portion of the work for the BOL is carried out by the top management of the Law Department, including the estimated time of the Deputies and County

Attorney in the calculation would increase the non-billable hours for the BOL from 5% to approximately 19% of the total number of non-billable revenue.

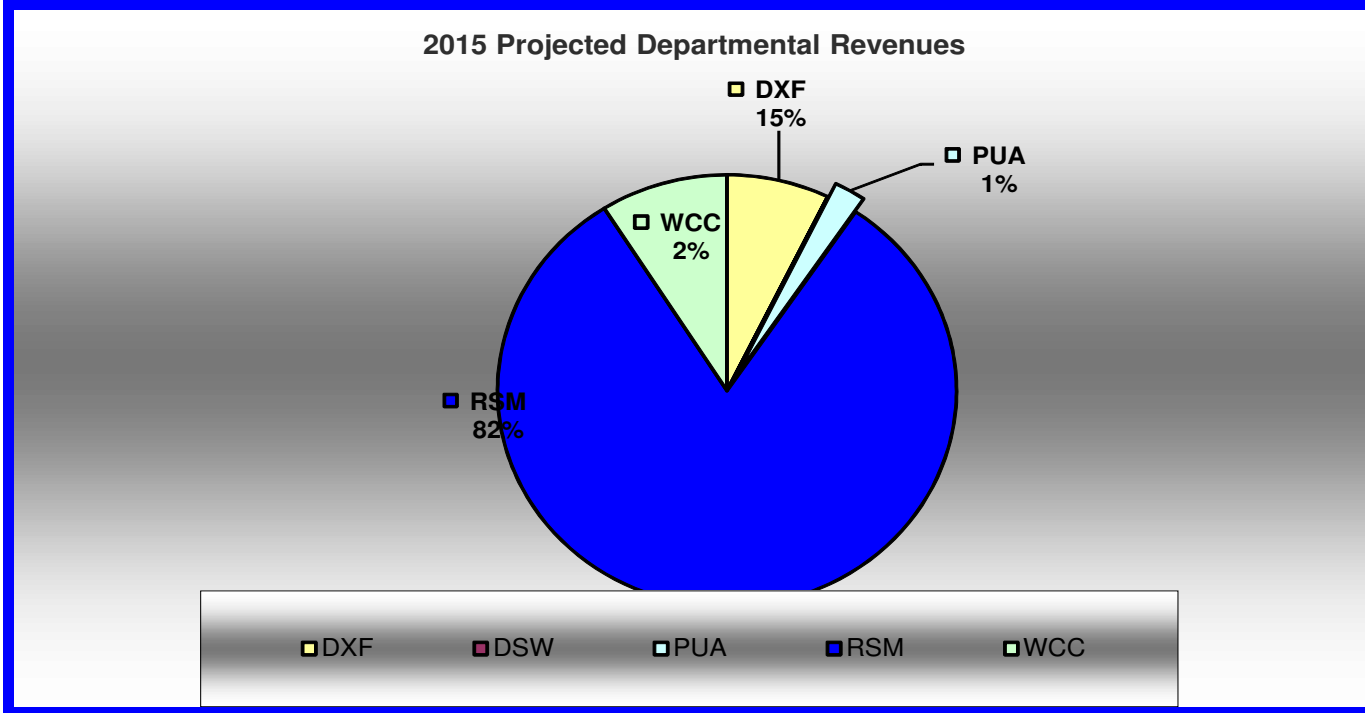

For the fiscal year that will end December 31, 2015 the Law Department is projecting to provide approximately 82,950 hours of billable client services, yielding over \$12,442,500 from both revenue streams: Inter- Departmental and Departmental. If the number of hours for non-billable services is included, then the number of hours for the year increases to approximately 100,130 hours

Moreover in 2016, in addition to the usual workload, including that reflected in the highlights of law department accomplishments for 2015 which follow herein, we anticipate performing extensive legal work related to: implementation of the terms of the ADC stipulation including legislation and potential litigation as necessary and appropriate.

The projected Inter-Departmental breakdown of revenue for 2015 is charted below.

The projected breakdown of the Departmental revenues for 2015 is shown below:

Risk Management’s departmental revenue is derived from reimbursement from the 6-N fund for expenses associated with the investigation and claims management of general, automobile, public officials and medical malpractice liability claims. Staff time is allocable to this function in addition to other indirect costs.

Appeals

The Appeals, Opinions and Legislation Bureau defends and prosecutes all civil appellate litigation on behalf of the county, its departments, boards, commissions, agencies, officers and employees, acting their official capacities. The appeals are heard in state and federal courts. In addition to numerous Family Court Appeals prosecuted by the Bureau, below are representative examples of recent Appeals.

Name of Accomplishment: Westchester v. U.S. Dep't of Housing & Urban Dev.

When Initiated: 2013

Current Status: Completed

Description: The County initiated a federal lawsuit to seek recovery of millions of dollars in community planning development funds that the U.S. Dep't of Housing & Urban Development had withheld. The district court dismissed the action for lack of subject matter jurisdiction, and the County appealed to the Second Circuit Court of Appeals. The matter was fully briefed, oral argument has been conducted, and the Second Circuit reversed the district court's order.

Name of Accomplishment: Cetina v. Westchester

When Initiated: 2012

Current Status: Completed

Description: Mr. Cetina, a Lieutenant with the Department of Public Safety, commenced this federal action seeking millions of dollars damages. The district court dismissed the action in its entirety, and Mr. Cetina appealed to the Second Circuit Court of Appeals. The matter was fully briefed, oral argument was conducted, and the dismissal was affirmed on September 30, 2014. Mr. Cetina then filed a petition for a writ of certiorari with the United State Supreme Court. The County successfully defended that petition.

Name of Accomplishment: Hoffman Investors Corp. v. Ruderman, et al.

When Initiated: 2012

Current Status: Decided

Description: Petitioners in this action were found by the Westchester County Human Rights Commission to have violated the Westchester County Fair Housing Law by discriminating against minority applicants. Petitioners commenced an Article 78 proceeding, challenging both the evidentiary basis of the decision and whether the Westchester County Board of Legislators had the authority to create the Human Rights Commission. The Supreme Court transferred the case to the Appellate Division. The Appellate Division upheld the determination of the Human Rights Commission, and denied the Article 78 proceeding. Petitioners have subsequently paid approximately \$38,000 to Westchester Residential Opportunities (~\$24,000) and the HRC (~14,000) for the underlying penalties imposed by the Commission, with interest.

Name of Accomplishment: McLaughlin v. Hankin, et al.

When Initiated: 2012

Current Status: Decided

Description: Petitioner, a former counselor at the Westchester Community College, initiated an Article 78 proceeding challenging her denial of tenure and subsequent termination. Following a hearing, the Supreme Court found that WCC violated the applicable collective bargaining agreement and that Petitioner was entitled to reinstatement and tenure. WCC appealed. The Appellate Division reversed and dismissed the underlying petition, finding that Petitioner did not adequately plead her case.

Name of Accomplishment: Westchester County Correction Superior Officers Ass'n
v. County

When Initiated: 2010

Current Status: Decided

Description: The Westchester County Correction Superior Officers Association brought this action seeking Workers' Compensation equivalent benefits for correction superior officers claiming permanent partial disability resulting from employment with the County. A motion for summary judgment was granted in favor of the County, finding that SOA has failed to state a cause of action. SOA has appealed from this decision, and the County cross-appealed from a denial of its motion to dismiss in the action. The Appellate Division affirmed the granting of summary judgment in favor of the County.

Opinions

The Bureau provides legal advisory opinions to county officers and officials. The County Attorney also decides appeals under the Freedom of Information Law Appeals from decisions of other county departments and agencies, regarding access to their records.

Legislation

Pursuant to the Laws of Westchester County, the County Board of Legislators has the power to act by Local Law, Act or Resolution. In addition, the County Board of Legislators may request that the New York State Legislature pass state legislation granting the county certain specific powers that it would not otherwise possess under New York State law.

The Appeals Bureau is responsible for reviewing and drafting certain pieces of local and New York State legislation for the County Executive and the County Board of Legislators as may be appropriate under the circumstances. Each request for legislation is initially reviewed for legality, including such issues as whether such legislation would be preempted by state or federal law, whether such legislation requires a mandatory or permissive referendum prior to becoming effective and whether such legislation is subject to SEQRA review. Moreover, assuming legislation is legally appropriate, a committee report including the intent of the law or act, a transmittal letter and a resolution for a public hearing, accompanying all local laws, is also prepared.

Prevention & Training Programs:

Ongoing Initiative Workplace Violence Prevention Program

Description: In a joint effort with Human Resources, Public Safety and Public Works, the Law Department participates in the ongoing development, implementation and monitoring of the County's Workplace Violence Prevention Program. Through the Workplace Violence Prevention Committee, reports and occurrences of workplace violence are monitored and reviewed, and appropriate recommendations made therefrom, in order to track and reduce the occurrence of workplace violence in the County.

Conducting Freedom of Information Law ("FOIL") Training for County Employees

When Initiated: 2004

Dollars Saved: The dollars that have been saved as a result of this ongoing initiative cannot be calculated by a special dollar figure. Nevertheless, the absence of, or decrease in, the amount of legal opinions and/or lawsuits which may result from errors in responding to requests for release of information certainly results in a cost savings to the County.

Description: This presentation, to be provided by members of the Law Department, will contain information, including the most recent updates to the Freedom on Information Law and general guidance to County officers and employees who are designated to be the FOIL officers of their particular County department, in accordance with the New York State Public Officers Law and the Laws of Westchester County.
