

**Westchester County Solid Waste Commission**  
**2016 Proposed Operating Budget**

**Mission**

The Mission of the Westchester County Solid Waste Commission is to promote the general health, welfare, and safety of the citizens of Westchester County by seeking to eliminate the influence of organized crime in the solid waste and recyclables hauling industries; ensuring that only individuals and companies of good character, honesty and integrity receive licenses to operate in the solid waste and recyclables hauling industries; increasing competition among haulers and enhancing consumer choice; and ensuring that solid waste generated within or brought into Westchester County is disposed of or recycled in an environmentally safe manner by assisting in the implementation of the County's Solid Waste Management Plan.

**Goals of the Solid Waste Commission:**

- a) To perform background checks on all applicants and principals requesting a license or registration so as to ensure the good character, honesty and integrity of licensees and registrants in Westchester County.
- b) To issue licenses and registrations for the performance of activities for which a license or registration is required by the Westchester County Solid Waste and Recyclables Collection Licensing Law (Chapter 826-a of the Laws of Westchester County).
- c) To ensure that only licensed carters haul solid waste and recyclables within Westchester County, and that licensed carters only use trucks registered with the Solid Waste Commission.
- d) To ensure that transfer stations are accepting solid waste and recyclables only from entities licensed by Westchester County.
- e) To investigate all complaints against haulers that occur within Westchester County.
- f) To encourage entry into the solid waste and recyclables industry and encourage competition within the industry in Westchester County.
- g) To inform the public of its rights under the Westchester County Solid Waste and Recyclables Collection Licensing Law.
- h) To ensure that solid waste generated within or brought into Westchester County is disposed of or recycled in an environmentally safe manner consistent with the requirements of the County's Solid Waste Management Plan.

### **Ongoing Commission Initiatives**

The Commission continues to receive and investigate complaints filed by citizens, businesses and other carters about pricing, collections, contracts, and possible violations of Chapter 826-a.

The Commission continues to conduct inspections at transfer stations in Westchester County to ensure that only licensed carters are dumping in the County, and that licensed carters are using only vehicles registered with the Commission.

The Commission continues to conduct educational sessions for interested municipal police departments about the municipal enforcement provisions of Chapter 826-a, and continues to field questions from police officers throughout the year about municipal enforcement. Since 2001, the Commission has briefed local government officials and/or police department personnel representing 31 of the County's municipalities.

The Commission also reminds public officials from both municipalities and school boards that the Commission investigates the backgrounds of, and licenses private carters. We recommend that they consult the list of licensed companies published on the Commission's website in order to ensure that they hire companies that have met our licensing standard of good character, honesty and integrity. We also invite them to contact us if they need assistance, if they have any questions about finding a licensed carter, or if they have problems with a carter.

The Commission continues to work with the Westchester County Department of Public Safety as it investigates possible criminal activity related to the solid waste and recyclables hauling industry in Westchester County. In addition, the Commission continues to work with law enforcement and other government officials from municipal, County, state and federal agencies throughout the region concerning Commission investigations.

The Commission continues to strive to ensure that all customers are provided with service contracts, and that all service contracts comply with the provisions of Chapter 826-a, and include a copy of the Customer Bill of Rights specifying a customer's rights under Chapter 826-a. By ensuring that all customers are apprised of their rights, thereby facilitating a customer's ability to change carters when appropriate, the Commission enhances competition and consumer choice.

The Commission continues to review dump records from transfer stations located within Westchester County to ensure that only licensed carters are dumping in the County.

The Commission continues to share licensing information with the Departments of Health and Consumer Protection. The Commission also coordinates enforcement with the Department of Consumer Protection in cases where a homeowner has a dispute with a private carter over payment for hauling of residential waste.

The Commission continues to work with the Department of Environmental Facilities in its enforcement of Westchester County's recycling requirements, and in its collection of information about where carters take the waste and recyclables they collect, and how transfer stations handle the waste and recyclables deposited at their facilities.

### **Department Accomplishments:**

#### **On Going**

A by-product of the Commission's close cooperation with the Department of Environment Facilities in the enforcement of the County's recycling requirements is that Inspectors for the Department of Environmental Facilities also monitor compliance with the provisions of Chapter 826-a. As a result, a number of the administrative enforcement cases brought by the Commission are based upon observations by the DEF's Inspectors. Concomitantly, Commission's inspectors refer recycling infractions to DEF for enforcement by that agency.

The Commission continues to review license applications and complete background investigations of companies seeking to operate in the solid waste and recyclables hauling industry in Westchester County in order to ensure that only companies and individuals of demonstrated good character, honesty and integrity are operating in the County. By encouraging reputable companies and individuals to operate in the County's hauling industry, the Commission seeks to promote competition, thereby keeping prices affordable for consumers.

The Commission continues to receive and investigate complaints filed by citizens, businesses and other carters about pricing, collections, contracts, and possible violations of Chapter 826-a. Commission staff interview the customers, witnesses and when appropriate, carters about these complaints. As a result of the Commission's efforts, disputes between customers and carters have been resolved; customers have been freed, when appropriate, to seek new carting services; and carters have been charged with violations of Chapter 826-a, when appropriate. In addition, the Commission has referred cases to the appropriate law enforcement or governmental agencies. A full time detective from the Westchester County Department of Public Safety has been assigned to the Commission and his salary is funded by the Commission. In addition to enforcement work, the detective prepares complete background investigations and interviews every prospective licensee.

In order to serve the public more efficiently, the Commission has recently moved their offices to White Plains. In addition, the Commission on an ongoing basis, updates its website which includes a list of carters licensed to operate in the County; a list of transfer stations located in the County; copies of laws applicable to the hauling industry in the County, including the Customer Bill of Rights; and applications for licenses and renewals.

Recently, the Commission has commenced a Public Information Program consistent with its mandate to ensure a fair and competitive market by educating the public, specifically commercial establishments, on the proper disposal of solid waste and recyclables generated within the County. These efforts include educating the public on hauler licensing and reporting requirements, transfer stations and enforcement options, as well as detailing contractual rights they have under the Solid Waste & Recyclables Collection Licensing Law. Commercial businesses that use private carters are assured that through the work of the Commission the industry remains free from organized crime and other criminality. The Commission is currently coordinating a schedule with a representative of the business community to reach out to various business organizations such as local chambers of commerce.

**Enforcement**

During 2015, through the Commission meeting of October 27, 2015, the Commission authorized the initiation of 61 cases for a variety of violations, to wit:

- Unlicensed Operation
- Failure to pay required Commission fees or fines
- Failing to register a vehicle used to haul solid waste and/or recyclables
- Failing to display current Commission decals on a registered truck used to haul solid waste and/or recyclables
- Failure to comply with the waste and recyclables reporting requirements of Chapter 826-a
- Failing to properly label a container used to store solid waste and/or recyclables
- Violation of the good character, honesty and integrity standard

**Tax Levy:**

The Solid Waste Commission proposed budget for calendar year 2016 is “tax levy neutral” as required by law.
